This deadly poison may lay dormant in the blood for years, or until you reach middle life, then the first little sore or ulcer makes its appearance—or a swollen gland in the breast, or some other part of the body,

gives the first warning.

To cure Cancer thoroughly and permanently all the poisonous virus must be eliminated from the blood—every vestage of it driven out. This S. S. S. does, and is the only medicine that can reach deepseated, obstinate blood troubles like this. When all the poison has been forced out of the system the Cancer heals, and the disease never returns.

Cancer begins often in a small way, as the following letter from Mrs. Shirer shows: A small pimple came on my jaw about an inch below the ear on the left side of my face. It gave

This independence on the part of the Ohlo Representative is taken as a portent of a bitter fight that will be waxed from the minute the bill is taken up by the House. PHILIPPINES MAY GET FREE SILVER.

Government Has Only One Other Course Open, Silver Purchases on Account.

REPUBLIC SPECIAL. Washington, Nov. 26.-A Washington special to the Evening Post says: "The exigencies of the Philippine administration bid fair to force the United States

Government to the free coinage of Silver for colonial account, or send it back into the market as the purchaser of silver bul-"Our soldiers are seriously handicapped

in all their transactions. There is no gold in circulation in the Philippines and the American dollar is intrinsically no better than the local dollars (Mexican, English and Spanish), which have a purchasing value of only 50 cents or 60 cents. "Another trouble arises from the fact

that, with the development of the islands the existing volume of money in circulation is proving inadequate to the people's needs It is obvious, increfore, that the Government will soon be forced to tackle the problem of a special Philippine coinage. "There is a mint at Manila, now disuse

but probably in such condition that it could be put to work again, and the question before the authorities in Washington is whether to establish free coinage, for a special American peso, worth 50 cents and receivable for all public dues at that value, or whether to purchase, at market prices enough silver bullion from time to time to keep the mint busy and the islands supplied ith currency.
"If the latter plan is adopted, it will be

with the understanding that the new pesos shall be interchangeable at all times with gold at the rate of 2 pesos for \$1. "In case the Government buys silver bul

lion and coins it under the conditions just described, it is likely that the new coin will be made just heavy and fine enough to con tais, say, 45 cents' worth of silver at the market rate prevailing when the plan is put into operation. "This would leave a seigniorage of 5 per cent, which could be laid aside as a reserve fund to meet a possible rise in the price of

silver bullion. "To one of the two plans, free coleage or silver purchases for Philippine account, the coming session of Congress is likely to be asked to give its sanction. OFFICIAL VOTE OF VIRGINIA.
